- » Up-to-the-minute notifications and message service alerts you when something changes to your flight, hotel car rental status.
- » MyTrip feature automatically stores your future and past trip information.
- » Share your trip to keep friends and family informed.
- » Accessible via wireless or non-wireless connectivity (airplane mode).

TRIPCASE

TripCase is the ultimate mobile application for both business and leisure travellers to stay in control when travelling. Focusing on enhancing the traveller's post-booking experience, this **smart mobile toolkit** delivers advice, alerts and tools relevant to **when and where** you are. Download TripCase for free to your mobile device and receive real-time access to all your trip information, right at your fingertips.

Be empowered, informed and connected with TripCase.

Empowered

With **just one click**, you can access your most important trip details, to help reduce painful travel experiences. With TripCase, you can:

- » Automatically import trip details from TripCase's many connected travel partners
- » Manually add flights, hotels and rental car information if required
- » Access useful hotel and car rental information, including photos
- » Input notes about important trip details

Informed

TripCase's smart mobile technology delivers **up-to-the-minute** advice, alerts and tools relevant to *when* and *where* you are, including:

- » Alternative flight schedule information
- » Security wait times and baggage claim information
- » Flight delays, cancellations and gate changes
- » Hotel and car rental status alerts

Connected

TripCase's **sharing service**, TripLog, allows you to share your travel experiences, plans and information with family, friends and colleagues.

Use TripLog to:

- » Stream information to and from your trip
- » Share trip updates, post photos, send to and receive messages from followers
- » Leave notes regarding important trip details
- » View maps and weather information
